
SUMMARY & PROFESSIONAL EXPERIENCE

Fullstack software engineer equipped with more than 4 years of experience building SaaS products in data-intensive industries, notably financial and health services. Expert in frontend development technologies such as Javascript, Typescript, React, HTML, and CSS. Working principally in Agile and fully remote teams, he has a mastery of continuous communication necessary to build successful products owned by cross-functional teams in fast-moving environments.

Frontend Software Engineer

Deel / Remote / April 2023 - Present

I am working in a cross-functional team to reorganize and harmonize contract management experience for Deel's business and individual users. Intensive refactoring, re-designs, and new features.

Software Engineer

Crossover Health / USA / July 2021 - December 2022

- Implemented a new and responsive website accompanied by a native application which helped the company secure B2B contracts worth +\$30 M
- Wrote reusable unit test documents to ensure quality control and detect bugs and web accessibility issues by increasing efficiency rate by +30%
- Collaborated on APIs and managed software workflow using Scrum, decreasing delivery time by 25% and reducing bugs

Lead Software Engineer

Ossix Technologies / Rwanda / February 2020 - June 2021

- Led a team of 6 engineers and collaborated with stakeholders to develop and launch a new (fintech) product in 8 months, 4 months ahead of schedule
- Reviewed code quality, analyzed weak points, and improved system architecture to support business requirements.
- Wrote Javascript libraries to set up and manage micro frontends architecture decreasing feature launch time and allowing the company to add specialized teams

Quality Assurance Engineer

ProdPerfect / USA / December 2019 - May 2020

- Created accurate and efficient test scripts to manage automated tests increasing efficiency by over 90%
- Debugged code and analyzed configuration files and logs
- Succeeded in consistently resolving issues before SLAs

Software Engineer
